PROFESSIONAL SUMMARY

Front-end developer with a full stack toolbox. I build web and mobile products end to end — from the database schema to the last pixel — with React, Next.js, TypeScript, NestJS and React Native. Currently working remotely with English-speaking teams, and always shipping side projects.

EXPERIENCE

Front-end Developer — PMG Global Advisors Mar 2026 — Present

Remote · Full-time

- Build and maintain production web and mobile applications with React, Next.js and React Native for international clients.
- Integrate front-end features with REST APIs built in Node.js and NestJS.
- Improve performance, accessibility and reusability of UI components.
- Collaborate daily with English-speaking, cross-functional teams using Agile and Jira.

Teaching Assistant · Full Stack — Henry Oct 2025 — Oct 2026

Remote · Part-time

- Helped full stack students solve technical questions in JavaScript, React and backend development.
- Reviewed code, debugged issues and supported individual and team projects.
- Prepared material for presentations and hands-on sessions.
